

LIQUID EXTRACTS & CONCENTRATES

We use a proprietary counter-current extraction technology called Dynamic Liquid/Solid Extraction™ (DL/SE™) to gently produce liquid extracts and concentrates that are full-flavored, fresh and distinctive.

DL/SE™ produces highly concentrated flavors, antioxidants and botanical extracts using minimal solvent, eliminating the need for further thermal concentration, which normally degrades important phytochemicals or drives off essential top notes.

Our high-quality DL/SE™ Extracts and Concentrates are perfect for use in food, beverage and nutraceutical applications—where flavor and botanical marker content matter most!

Extraction Solvents:

- ▶ Water
- ▶ Ethanol – Organic or Conventional
- ▶ Propylene glycol USP

Liquid Extracts & Concentrates to Choose From:

- ▶ Black Tea*
- ▶ Ceylon Tea
- ▶ Hibiscus*
- ▶ Oak Chip
- ▶ Organic Green Tea
- ▶ Organic Tulsi Tea
- ▶ Organic Brewed Yerba Mate
- ▶ Organic Roasted Yerba Mate

*available both organic and conventional

Manufacturing Capabilities:

We can also manufacture custom extracts made from a variety of dried raw materials using a number of food-grade solvent systems. Depending on the solvent and raw material used, products may be labeled “natural flavor,” “brew” or “infusion.”

Have an Idea for a Product?

We'll help you bring it to market! **Blueprints for Health®** is our quick-to-market solution for custom products and turnkey solutions. Our diverse range of services will streamline the entire development, manufacturing and marketing process, saving you money, time and a whole lot of hassle.
