

PowerCap®

Turn-Key, Market-Ready Solutions

Presenting **PowerCap®** Patented Cap-Dispensing Technology, a strategic alliance with **Fortitech Premixes®** and **RFI**, to provide market-ready beverage solutions. Beverages with added health benefits are in high demand. Developing and delivering them is more easily done than ever—as a finished product with **PowerCap®** technology!

Develop and manufacture your concept with **RFI**

- Full integration from concept through to finished product
- Project management expertise and critical evaluation of every step of development
- Marketing, regulatory and labeling support
- Development of final product specifications and marketing benefits
- Manufacturing under third party certified cGMP to 21CFR Part 111
- Turn-key solutions for all application needs

Realize your concept with **Fortitech Premixes®** – combining nutrients, flavors, colors, sweeteners and stabilizers into a single market-ready powder.

- Lower expenses and avoid costly formulation mistakes
- Maintain quality—every step of the way
- Go to market faster with customized solutions
- Unmatched formulation expertise for cap-dispensing technology
- Save on labor, cost and testing
- Our premixes preserve three key elements of successful beverage products: taste, stability and mouth feel

Deliver your concept with **PowerCap®** technology

- Longer shelf-life than RTD beverages
- Simple and intuitive push design that appeals to on-the-go customers
- Fits 95%+ of bottled water containers manufactured in the U.S.A.
- Significant savings on shipping with PowerCap® Universal compared to RTD
- Customizable color and embossing
- Sustainable packaging and environmentally friendly compared to RTD production
- Patented cap technology
