Completes the Antioxidant Puzzle

ORAC Values

Guaranteed ORAC Values

While ORAC value is only one piece of the antioxidant puzzle, we test each batch for ORAC value as a quality control measure—to assure that our client-partners are getting the absolute best quality that nature can provide.

Marker Compounds

Standardized Marker Compounds

OxyPhyte® Antioxidants are standardized and guaranteed for quality, allowing you to make active compound claims:

- ▶ Polyphenols
- ▶ Catechins
- ▶ Resveratrol
- ▶ Anthocyanins

Claims Substantiation

Dependable Claims Substantiation

We guarantee the quality of OxyPhyte® ingredients and have the data to prove it! All of our ORAC claims are backed-up by ORAC values and marker content on each COA.

Also Available: Collaborative clinical testing on custom blends!

Bioavailability

Bioavailability

Our OxyPhyte® Ultra Blend has confirmed bioavailability with human volunteers.

Cellular Uptake & Activity

Cellular Uptake & Activity

The Cell-based Antioxidant protection in Erythrocytes (CAP-e) is an ex-vivo assay that confirms the cellular uptake potential of an antioxidant, which provides a piece of the antioxidant puzzle not predicted by ORAC.

CAP-e results for OxyPhyte® Antioxidants show that each ingredient has cellular bioavailability and supports healthy redox reactions within cells.

Condition-Specific Targets

Condition-Specific Targets

Confidently use OxyPhyte® Antioxidants to make condition-specific structure/function claims in the following categories:

- ▶ Anti-aging
- ▶ Immunity
- ▶ Sports Nutrition
- ▶ Cardiovascular Health
- ▶ Eye Health
- ▶ Beauty “From Within”
- ▶ Weight Management
